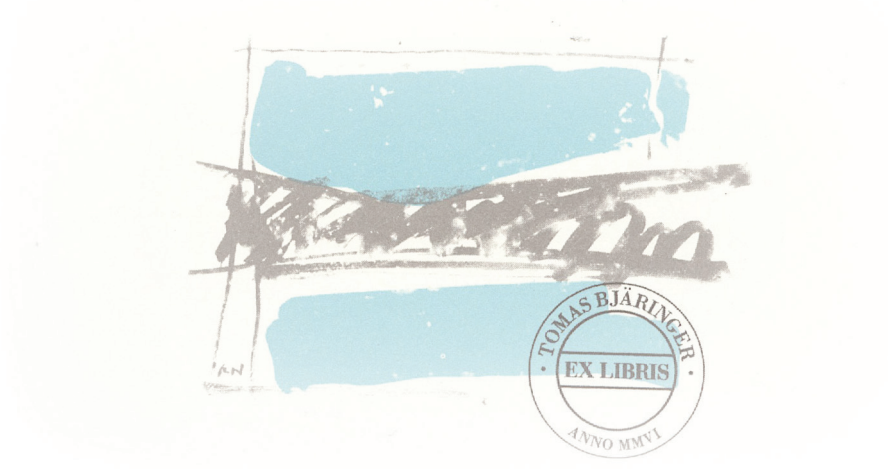
Tomas Bjäringer
RDP Hon. FRPSL (b. 1947)



It's SHOWDOWN!

Get ready for the Tomas Bjäringer showdown! In 2002, his renowned collection of stamp boxes was anonymously auctioned under the pseudonym „PARIS"—a nod to Tomas's second home for many decades. This time around, with his philatelic library, there's no mystery about the owner. And frankly, it couldn't be kept under wraps anyway!

Tomas Bjäringer's one-of-a-kind library has already generated quite a buzz, with extensive coverage in the international philatelic press. Collectors of philatelic literature are eagerly anticipating this auction. We're expecting enthusiasts from all corners of the globe to attend in Wiesbaden, so the stage is set for a truly successful event.

Tomas himself has been a subject of many publications over the years, especially since 2019. That's when he teamed up with Wolfgang Maassen to organize the literature section for the hugely successful STOCKHOLMIA 2019 exhibition, expertly put together by Jonas Hällström.

What set Tomas Bjäringer apart as a collector of philatelic literature was his unique approach. He didn't limit himself to specific areas; instead, he acquired anything that sparked his thematic interest. He had a keen eye for that special „extra" in his finds—whether it was the exceptional quality of a book, a distinguished previous owner, a low number in a limited edition, a personal dedication from a notable collector, a printed manuscript of a later published monograph, complete exhibition information bulletins, or even auction catalogues with notes from the auctioneer or original owner. These distinctive features often transform what might be a „normal standard work" into a truly unique item. These 1,277 unique pieces of international literature are now showcased in this remarkable auction catalogue, ready to go under the hammer.

We owe immense gratitude to Wolfgang Maassen for his tireless work in describing each and every one of these items. For weeks, he immersed himself in our Wiesbaden offices, meticulously compiling this masterpiece of an auction catalogue — a labour of love for his friend Tomas, no doubt. He spent countless hours with Tomas, fine-tuning descriptions, deciding on detailed inclusions, and setting conservative starting prices. Thanks to Wolfgang, we have an auction catalogue that's unparalleled in philatelic literature. It's truly a standard work, complete with a comprehensive index that will make it a definitive reference for years to come. Without Wolfgang Maassen and his special friendship with Tomas Bjäringer, none of this would have been possible. It's like two five-star chefs creating a twelve-star meal! We're also deeply indebted to Chris King RDP Hon. FRPSL, who meticulously edited and refined all the descriptions, adding the perfect finishing touch.

And now, the moment we've all been waiting for: the showdown! The auction is just around the corner, and we sincerely hope that many bibliophile collectors will find new treasures for their collections.

Tomas Bjäringer and Wolfgang Maassen (right) have been friends for many years. They share their love for philatelic literature.

P.S. Don't miss the presentation of Tomas Bjäringer's Sweden library at the end of this catalogue! It will be auctioned by GÖTA Frimärken on November 30, 2025, in Göteborg!

Tomas Bjäringer and the "PARIS" Philatelic Library

Unique. That is a word that could be used in many descriptions of Tomas Bjäringer's collection of philatelic literature, referred to as the PARIS Library.

The majority of Bjäringer's library is being offered in this special catalogue, while the Swedish literature has been entrusted to Göta Frimärken, with a special auction to be held on 30 November.

Tomas Bjäringer is undoubtedly Sweden's most internationally renowned and accomplished philatelist. Back in 1978, at the age of 32, he was invited to sign the Roll of Distinguished Philatelists, and become RDP the most significant honour in the world of philately. It is no wild guess that he is the youngest person ever to have received this honour. Today, he is the doyen of this exclusive club, being the longest as an RDP. Since 2007, Bjäringer has been a member of the Board of Election, which annually appoints new signatories to the 'Roll'.

Further proof of Tomas' international status is that since 2008 he has been a member of The Royal Philatelic Society London's prestigious Expert Committee, which issues certificates for worldwide philatelic items. Upon his election, he became the first foreign member ever of the committee, and he still is.

In 2013, he was appointed Honorary Fellow of the Royal Philatelic Society for his many years as an outstanding international ambassador for the Society, as stated when the honorary award was presented in The London Philatelist. He was the Society's representative in France for many years.

After having lived in Brussels since 1972, Tomas moved back to Stockholm, and then settled in Paris from 1982. He has thus spent most of his philatelic career outside Sweden.

Tomas Bjäringer's Supporters

Tomas' mentors however, are the legendary Swedish collectors Georg Menzinsky RDP (1907–1981), Pelle Sjöman (1905–1974) and Sven Åkerstedt (1908–1977) who taught Tomas a lot when he was developing his skills in philately in the late 1960s.

Sigge Ringström RDP (1908–1992) also became an important contact, and the iconic philatelist in Trelleborg placed enormous trust in him already early on. After only two years of acquaintance, in 1971, Sigge appointed the young collector to succeed him as a natural member of the board of the Ringström Museum of Philately Foundation. As such, Tomas had the power to appoint his own successor and to choose two additional members of the board.

Menzinsky has a keen eye for young people – as they are considered in this context – Tomas Bjäringer (born 1946) and Gustaf Douglas RDP (1938–2023). Georg contributes to their election in 1968 to the venerable Stockholm Philatelists' Society. Both are involved when the Society for Swedish Postal Documentation (SSPD) is formed in 1970.

Menzinsky also explains to Tomas that there are four international organisations that a serious philatelist must be a member of. No sooner said than done, Tomas becomes a member of The Royal Philatelic Society London in 1971, the Collectors Club, New York in 1973, the Berliner Philatelisten- Klub von 1888 e.V. in 1974 and the French Académie de Philatélie in 1979.

In 2021, Tomas received the Lindenberg Medal from the German association, named after its co-founder and first chairman Carl Lindenberg (1850–1928). It is awarded for exceptional achievements in philatelic research or literature and is the oldest philatelic award still in existence.

'Swedish champion' at the first attempt

But back to Sweden and Tomas' exhibition debut at IENECOPIA 1969 in Jönköping. Tomas shows "Sweden 1855–1872" and "Gustaf V in medallion". For both collections, he receives Vermeil and the Swedish Philatelic Association's honorary award, which is the exhibition's grand prix. In Göteborgs-Posten, Axel Miltander (1927–2008) gives the creative article headline 'Young Stockholm resident wins Swedish philatelic championship'.

It is most certainly Georg Menzinsky who is behind the Bjäringer-Douglas duo being invited to display their joint exhibit "Sweden 1855–1919" in the Court of Honour at the world exhibition PHILATOKYO. When the Collectors Club of New York celebrated its 100th anniversary with the major exhibition ANPHILEX in 1996, exclusively for invited guests, the long-time collector friends collaborated once again. Under the joint pseudonym 'Two Anonymous Collectors', they exhibited skilling banco rarities. These included unused pairs of the 3-, 6- and 8-skilling stamps, an unused block-of-four of the 4-, 6- and 8-skilling stamps, and covers with a 4 skilling, including a first day cover of 1 July 1855.

On his own, Tomas exhibits "Sweden 1855–1872" at the FIP exhibitions INTERNABA 1974 in Basel and INTERPHIL 1976 in Philadelphia. He received a Large Gold Medal on both occasions, as well as the jury's congratulations at the exhibition in the United States. The jury chairman, John R. Boker RDP (1913–2003), emphasised during the award ceremony „the unusual and original nature of a young Belgian having managed to build up such an interesting collection of Swedish stamps." This according to Gilbert Svenson (1919–1987) in Nordisk Filateli. At that time, Bjäringer, with his address in Belgium, was still unknown to the American collecting giant.

Hardworking Author

This was the last time Bjäringer showed his Sweden collection in competition. In 1978, he found a new challenge in Haiti, where he sought an area with imperforated stamps and interesting philately. "Haiti 1770–1887" won gold at LONDON 1980 and PHILEXFRANCE in Paris 1982.

Over the years, Bjäringer has built up a number of other collections, such as "French Letters to Foreign Destinations 1849–1875", "Stamps on Skilling Banco Postage Stamps" and an exhibit of counterfeit Swedish postage stamps.

Not to mention a high-quality collection of stamp boxes. It was exhibited at NORDIA 1990 in Lund, the Musée de la Poste in Paris in 1992, and at the Spanish Postal Museum in Madrid in 1995. The collection formed the basis for the book Les boîtes à timbres / Stamp boxes, written by British antique dealer Brian Beet (1948–2003) and published by the French Postal Museum in 1994.

Tomas himself has written countless articles for magazines, exhibition and award catalogues (the SFF catalogue 1969–1975, Facit 1976–1984), various smaller publications and has acted as co-author of a number of books:

With Jan Billgren (b. 1936) and Lauson H. Stone (1904–1999): Swedish Letter Rates to Foreign Destinations 1855–1895 (1986).

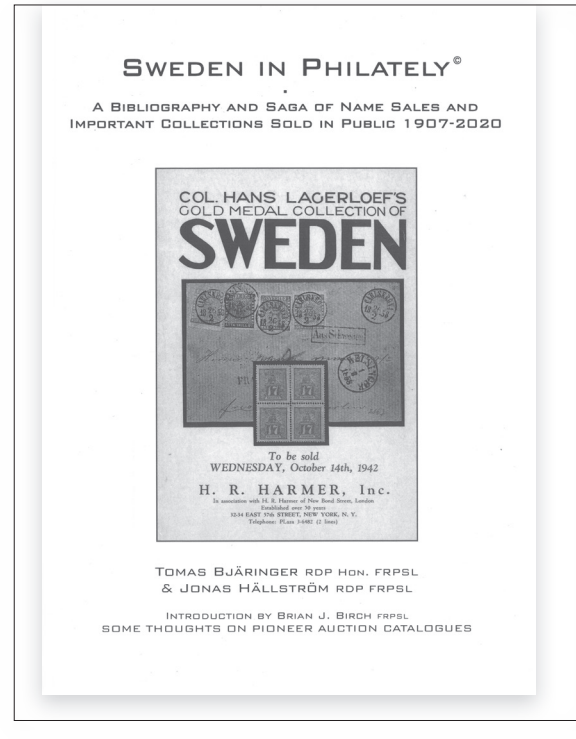
With Gustaf Douglas: Sweden Number One – The Three Skilling Banco (2005).

With Jonas Hällström (born 1972): Sweden in Philately / A Bibliography and Saga of Name Sales and Important Collections sold publicly 1907–2020 (2020).

With Mårten Sundberg (born 1958): Tête-Bêche / Rarities from the Oval Issue of Finland (2023). The book was awarded the Crawford Medal in 2025, the philatelic world's foremost literary prize. The Crawford Medal is awarded by the Royal Philatelic Society London since 1920 to 'the most valuable and innovative contribution to the study and knowledge of philately, published in book form' (translated from English).

Tomas Bjäringer is the third Swede to receive the award after Örjan Lüning (1919–1995) in 1979 and Sigge Ringström RDP (1908–1992) in 1982.

With Kent Ryen: Royal confessions to a lifelong friend / The correspondence of the Swedish and Norwegian Queen Louise 1850–1871 (2023).



Tomas Bjäringer & Jonas Hällström: Sweden in Philately. A Bibliography and Saga of Name Sales and Important Collections sold in Public 1907–2020. Introduction by Brian J. Birch (Some Thoughts on Pioneer Auction Catalogues).

20 x 27.5 cm, 75 pages, in colour, hardback, 2020.

New owners welcome

Tomas Bjäringer's passion for collecting philatelic literature was evident at STOCKHOLMIA 2019, when he displayed 246 books from two specially selected categories: Publications issued by The Royal Philatelic Society London, and works awarded the Royal's Crawford Medal.

Tomas himself enjoyed compiling his collection so much that he now wants to give other enthusiastic collectors the opportunity to purchase some pieces from his collection.

He has a very long relationship with Göta Frimärken, which will be selling the Swedish material of the PARIS Collection. The founders, Barbro (born 1941) and Fred Berntsson (born 1937), are close personal friends. Ulf Stenquist (born 1968), who took over the company in 2014, has organised two successful literature auctions in recent years.

Heinrich Köhler Auctions, which is selling everything except Sweden from Tomas Bjäringer's PARIS Library, and Göta collaborated in March 2018 when the third part of Bertil (1931–2018) and Kersti Larsson's (1929–2023) posthumous Sweden collection went under the hammer.

Philatelic genes

Finally, we have not mentioned the philatelic heritage of Tomas Bjäringer's ancestors – there is none, at least not in material form. His great-grandfather Wilhelm Wennberg (1836–1893) was a pioneer stamp collector in Sweden, and grandfather Harry Wennberg (1872–1926) was one of the kings of stamp dealers in the Nordic countries in the early 1900s. Of Harry's seven children, two daughters and five sons, four of the boys became stamp dealers. The only one who broke the mould was Tomas's father Seth (1906–1948). He was a journalist and bridge expert, and died when Tomas was only two years old.

There were no tangible traces of his ancestors' successes in stamp trading and collecting in the home where Tomas grew up. Despite this, he has devoted a significant part of his life to philately. It must be in the genes.

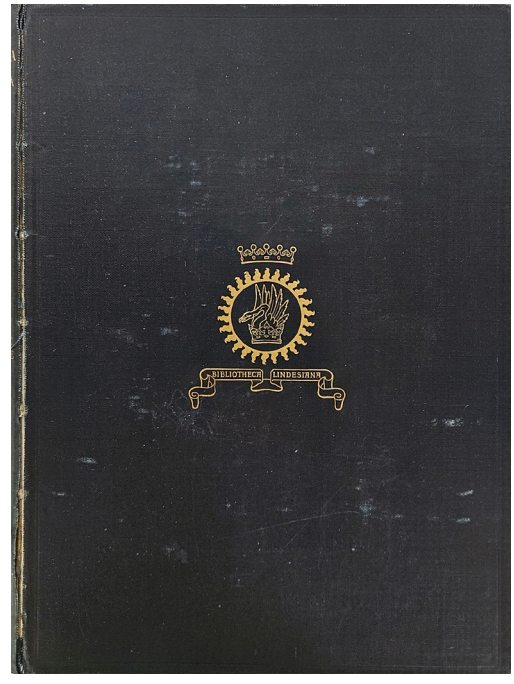
Twelve Philatelic Books to Bring to a Desert Island

Poor Tomas Bjäringer, abandoned on a desert island with hardly anything to eat – but quite a lot to read.

We visited Tomas Bjäringer RDP Hon. FRPSL in his extensive philatelic library in Stockholm, undoubtedly one of the most comprehensive holdings of philatelic literature in private hands of the world. Many of his rarities can be seen displayed in the Court of Honour at STOCKHOLMIA.

We had asked him to pick "ten philatelic books to bring to a desert island", and choose the books for whatever reason, no special criterion required. Tomas had to make it twelve books. There were so many excellent candidates.

Here is his list with the authors (or title) in alphabetical order.



Bibliotheca Lindesiana Vol. VII. A Bibliography of the Writings, General, Special and Periodical, Forming The Literature of Philately. The Aberdeen University Press 1911, xi + 342pp. (924 columns).

The original library catalogue of the greatest collection of early philatelic literature ever formed, now the collection is in the British Library.

Edward Denny Bacon did the cataloguing on behalf of the Earl of Crawford, who wrote an introduction in this original edition which were "for private distribution and, for the most part, went to institutional libraries as part of the larger set".

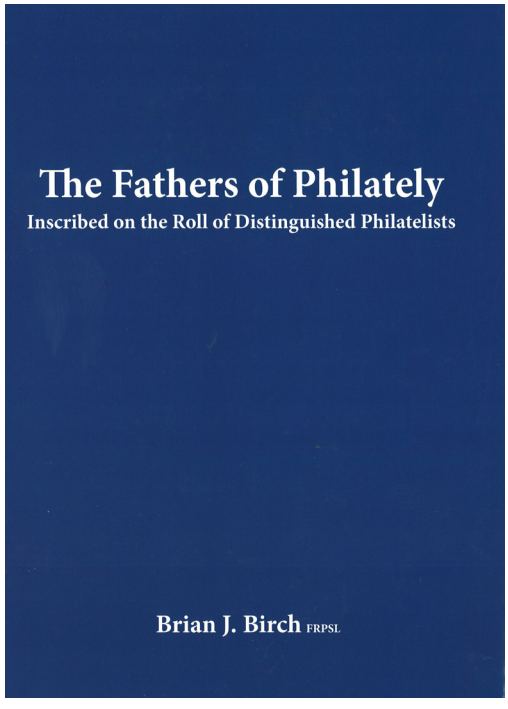
The same year, 1911, the Philatelic Literature Society published a public version of the catalogue, Catalogue of the Philatelic Library of the Earl of Crawford, in 300 copies, of which 100 were distributed free to the members of the Society.

A supplement was published in 1926, Supplement to the Catalogue of the Philatelic Library of the Earl of Crawford, KT. And as a supplement to The London Philatelist of March 1938 was published "Addenda to the Supplement".

Two more reprints have been made later on, in 1991 and 2011.

"The first publication to study concerning early philatelic literature," Tomas points out.

Lot No.: 20059



The Fathers of Philately. Brian J Birch FRPSL. The Royal Philatelic Society London 2019. 300pp.

The Fathers of Philately are the 42 esteemed philatelists whose names are written in the ribbons that ornate the two columns on each side of The Roll of Distinguished Philatelists.

When the "Roll" was introduced in 1921 these famous pioneers of philately were already dead.

In his introduction in the book, Chris King RDP Hon. FRPSL, who in 2013 asked Brian Birch to write the biographies of the Fathers, writes that it "was not expected to make up an entire volume, but as research developed, it was clear that there was material enough for a book ..."

Tomas Bjäringer, amongst others, has also taken part in the research. "Very little is published about this subject before."

Lot No.: 21132

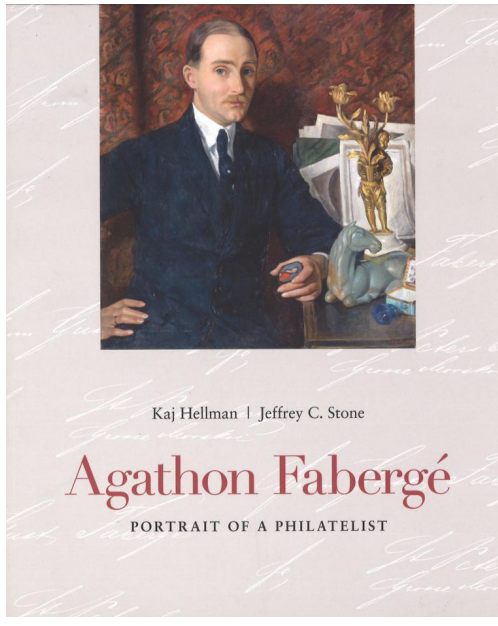
Les Colonies Françaises. Tarifs et Service Postal 1848–1878 / Les colonies d'Afrique by Michèle Chauvet. Brun & Fils 2009. 519 + 1pp.

Tomas Bjäringer lived in France for many years and worked with Michèle Chauvet since they were the representatives for RPSL in the country.

This is one of Michèle Chauvet´s three books about rates and postal service of the French Colonies, and was awarded with the Crawford Medal in 2010.

Michèle Chauvet has written or been co-author of several other works about French Philately or Postal History. She is also a renowned expert on Greece.

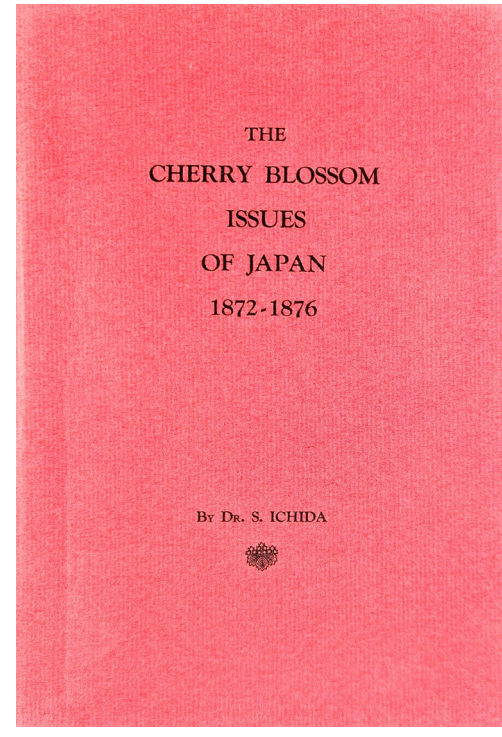
Lot No.: 20232



Agathon Fabergé. Portrait of a Philatelist by Kaj Hellman and Jeffrey C Stone. Suomen Filateliapalvelu 2017. 382pp. This is another book that underlines Tomas Bjäringer´s interest for the historical aspects of philately and philatelists.

Kaj Hellman, who passed away in autumn 2016, had good contact with Agathon Fabergé´s (1876– 1951) son Oleg (1923–1993) and his daughter Beatrice, still living in Helsinki. Hence the authors had access to material from Agathon Fabergé´s personal archive.

Lot No.: 20024

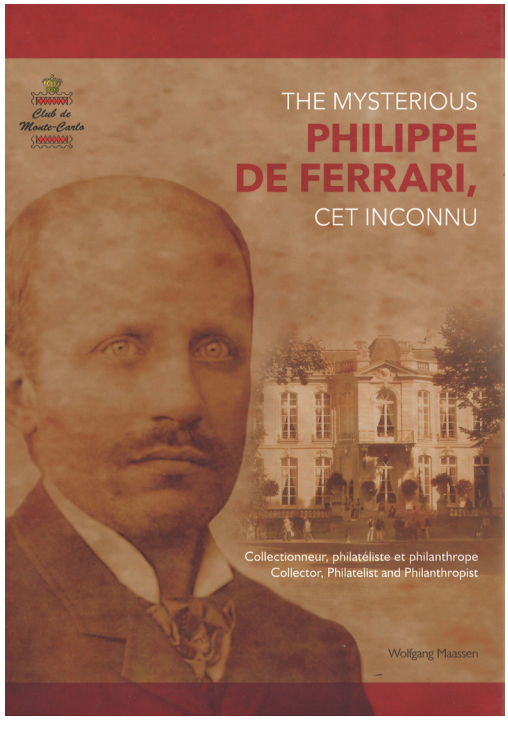


The Cherry Blossom Issues of Japan 1872–1876 by Sochi Ichida. All Japan Philatelic Federation 1965. 335pp.

One of the classic handbooks, awarded with the Crawford Medal in 1966, in the same category as Mirabaud and Reuterskiöld: The Postage Stamps of Switzerland, 1843–1862 or Schmidt: Die Postwertzeichen der Russischen Landschaftsämter, who both were amongst the candidates to bring to the desert island.

"The best book about Japan", says Tomas Bjäringer who has a special place in his heart for that country since Philatokyo 1971 was his first international exhibition. He and Gustaf Douglas were invited to present Classic Sweden in Court of Honour. Bjäringer's copy is No. 8 of 15 of the special author's edition, dedicated to Mrs Louis Boyd Dale.

Lot No.: 20842

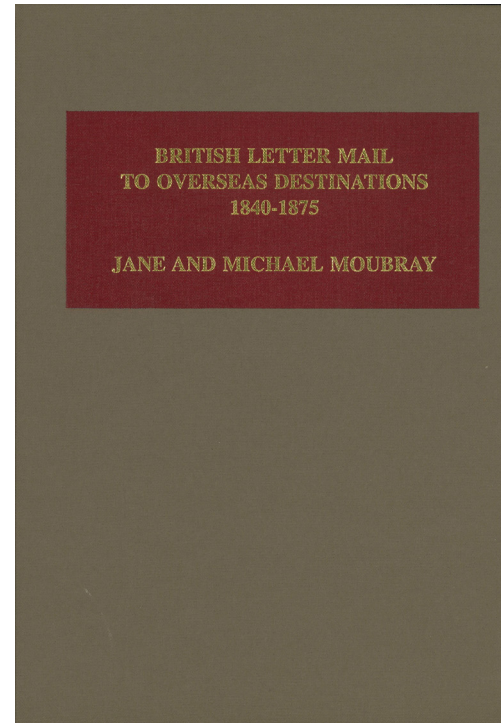


The Mysterious Philippe de Ferrari, Cet Inconnu by Wolfgang Maassen. Le Musée des Timbres et des Monnaies de Monaco 2017. 8 + 398pp.

Much has been published about the "Mysterious Philippe de Ferrari", but nothing so comprehensive and well researched as by Wolfgang Maassen. To get the English version of the book ready for Monacophil 2017 the author had to stop writing, but you can find almost 100 pages more in the German edition.

"Hopefully there will be a second edition."

Lot No.: 20069



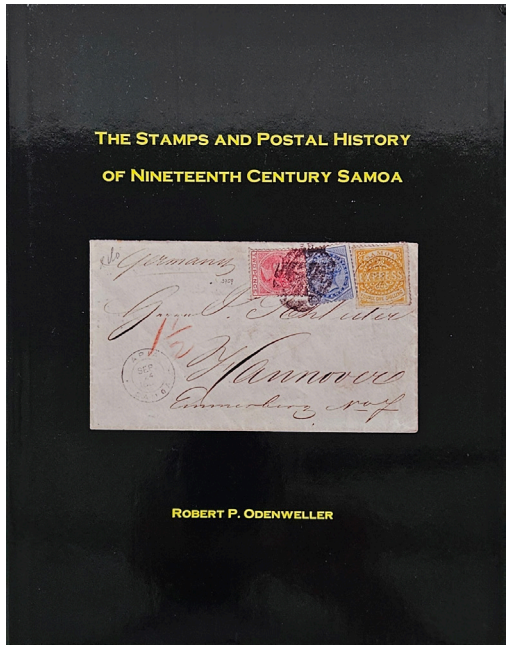
British Letter Mail to Overseas Destinations 1840–1875 by Jane Moubray and Michael Moubray. The Royal Philatelic Society London 1992. 512 + xxxii pp.

As the initiator, with Jan Billgren and Lauson H Stone, to Swedish Letter Rates to Foreign Destinations 1855–1895 (1986), Tomas is well acquainted with the scope of the book by the Moubrays.

The book, which got the Crawford Medal in 1992, is divided in 18 chapters, with 16 accompanying parts with rate tables, and hundreds of subchapters. A second edition was published in 2017.

As Tomas, Jane Moubray is a member of the Expert Committee of the Royal Philatelic Society London.

Lot No.: 21062



The Stamps and Postal History of Nineteenth Century Samoa by Robert Podenweller. The Royal Philatelic Society London, The Royal Philatelic Society New Zealand 2004. xvii + 392 + 6pp.

Another Crawford Medal awardee, this one in 2005, and as numerous other books in the Bjäringer library with a dedication from the author.

This book also has a special connection to Stockholmia as Jan Berg, Commissioner General of the exhibition and a close friend of Tomas, "was the most instrumental in the final effort to produce it", as Robert Odenweller writes in the preface.

Lot No.: 21071

The Private Ship Letters Stamps of the World. Part I. The Caribbean; Part II. Australia – Europe – South America by Sigurd Ringström and Henry E Tester. Skogs Trelleborgs 1976 and 1981. 166 + 2pp and 215 + 1pp.

These two parts, of a series of four, was awarded the Crawford Medal in 1982, and both are dedicated by "Sigge" Ringström to Tomas Bjäringer. Both parts include facsimile sheets of private ship letter stamps.

Tomas Bjäringer was chosen by Sigge Ringström (1908–1992) to be a permanent member of the board of "The Ringström Museum of Philately", thus the collections stored in a bank vault in the Swedish town Trelleborg and since some years in many parts available on Internet.

Part III in the same series, by Ringström, Tester and Jean Boulad d´Humières, is about the Suez Canal Company and Part IV by G W Connell is about the letter and parcel stamps of the Finnish shipping companies.

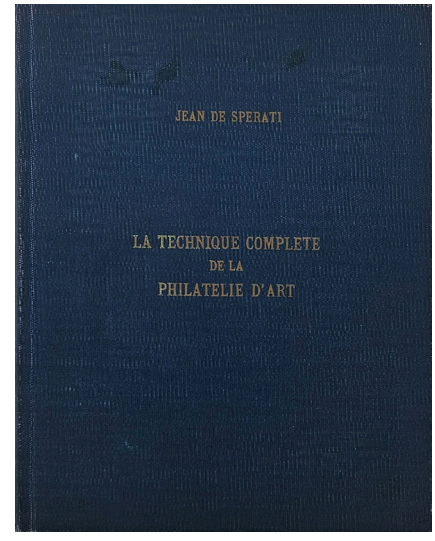
Lot No.: 21058

Royal Jubilee Exhibition of British Empire Stamps of the Victorian Era, May 6th to May 11th, 1935. The Royal Philatelic Society London 1935. 61pp + 1p corrigienda + 70 B & W photographic plates.

The catalogue in itself was issued soft bound, but Tomas Bjäringer has it hardbound including a folder for the photo plates and with a bookplate for the prolific philatelic writers LN & M Williams.

As with most of the items in the Bjäringer library he has also collected magazine clippings or other kinds of information to accompany the volumes. In this case he has, for example, a copy of the advertisement from The London Philatelist for the photo plates. They were offered in six sets, the price for all six was 3£ 10s. He also has a photocopy of Chris Harman´s original where the names of the exhibitors are added in pencil.

Lot No.: 21096



La Technique Complete de la Philatelie D'Art 1953 by Jean de Sperati. 122pp.

The master forger Jean de Sperati's own typed, carboned and bound – but unpublished – manuscript. According to the website WorthPoint, with a database for researching and valuing antiques, art and collectibles, only ten originals of this work do exist.

In the Bjäringer collection there is also an English version, with 140 pages, entitled The Complete Technique of the Art of Philately. That copy has an owner's mark of Raymond H. Weill Company / 407 Royal Street / New Orleans 16, LA.

A search in the Global Philatelic Library gives no hits for the French version and two for the English version: The Smithsonian National Postal Museum in Washington DC has one copy and the American Philatelic Library a photocopy.

Lot No.: 20923

Postmuseums Skilling Banco-frimärken i vapentyp. Postverkets äkthetsutredning 75. Undersökningsrapport 1975. 161pp. + 77pp.

This is the report from the group of eleven experts appointed by the Swedish postal authorities to investigate the genuineness of the Skilling Banco stamps in the Postal Museum in Stockholm.

"Exciting like a thriller", says Tomas Bjäringer.

During the work the opinions of the experts started to drift apart and in the end, one of them wrote a separate statement and four presented dissenting opinions. That is dissenting from the majority of the group whose opinion was that there are no other forged Skilling Banco stamps in the museum except for the ones registered as that. It is no overstatement to say that this investigation caused the quarrel of the century in the Swedish philatelic community.

The Fine Art of Protection: Slipcases and Bookbinding for Collectors

Annika Baudry and her ateljé b

After Communication Design Studies at Parsons School of Design and six years employment as senior graphic designer in New York, Annika relocated to France. As a book passionate she had already explored the bibliophilic world, but here she saw the possibility to deepen her technical knowledge of the object and received a CAP degree in bookbinding at Union Centrale des Arts Décoratif in Paris. Her foremost interests in typography, image, composition and layout all came together.

Her principal work is contemporary bookbinding for collectors and bibliophiles and she is featured in the permanent collection of several prestigious libraries and foundations. Annika also designs books, catalogues and visual identity and she creates her own artist's books, sometimes in collaboration with other artists.

The way of working with precious material and create objects to protect books was discovered by Tomas Bjäringer for his philatelic collection. Their trusting co-operation has now been in place for over 20 years.

Thurn und Taxis.

Durchgängig in allen englischen und französischen Katalogen, Albums, Preislisten und bei der gelegentlichen Erwähnung deutscher Briefmarken in ausserdeutschen Zeitschriften wird das Thurn- und Taxis'sche Postgebiet als Nord- und Süddeutschland aufgeführt; die gesammten deutschen Bundesstaaten erscheinen daneben als Anhängsel an das Thurn- und Taxis'sche Deutschland, und es ist die Frage, ob ein Engländer oder Franzose, der sein geographisches Wissen aus einem Briefmarken-Katalog oder Album schöpft, einen Preussen, Bayer, Sachsen etc. als einen Deutschen anerkennen wird. Doch um nicht ungerecht zu sein, müssen wir hier erwähnen, dass eine englische Briefmarken-Zeitschrift (der in Liverpool erscheinende *„Stamp Collector's Review and monthly Advertiser"*) ihre Interessenten darüber belehrt, dass Thurn und Taxis nicht den Begriff eines Landes, sondern eines Postgebietes in Deutschland ausdrücke.

Uebrigens glauben wir, dass einige Notizen über Thurn und Taxis auch unseren Lesern willkommen sein dürften. — Das Geschlecht der Thurn und Taxis stammt aus dem Mailändischen. Einer der ältesten Ahnherren war Martin I. de la Torre (zu Deutsch Thurm), welcher auf einem Kreuzzuge im Jahre 1147 als Gefangener der Sarazenen starb. Im Mittelalter zählte Mailand nach einander nicht weniger als acht Herren aus dem Hause de la Torre, der letzte derselben unterlag 1311 in einer Fehde mit dem ebenfalls mächtigen mailänder Geschlecht der Visconti; und einer seiner Nachkommen liess sich im Gebiet von Bergamo nieder und nahm nach einer ihm zugehörigen Besitzung auf dem Berge Tasso (Dachsberg) den Namen Tassis an, welcher später

More than 50 years ago Lowell Ragatz wrote, that there can be only twelve complete sets. This may be true, but only if one takes into account the last instalments of the 'Spud Paper' series, which appeared in the journal 'The Philatelic Quarterly' from January 1877 to September 1879. The individual issues of this journal are also included in this lot (unbound, some minor cover defects). Ragatz can be quoted again here, as he said earlier: '... that this Periodical is practically non-existent.' Either way, many complete copies like this one probably no longer exist because many facsimiles have been cut up and removed. All in all, a real rarity lot. Also included is the Ragatz reprint of the 'Spud Papers'. Estimate: 1.000 Euro	500

21215		FERRARI, PHILIPP DE – 'Catalogue des Timbres-Poste / Composant la collection de M. Ferrari de La Renotière' (14 catalogues, 1921–1925, compiled and described by Gérard Gilbert, expert and auctioneer in Paris. The catalogues of these legendary auctions are bound in four bibliophile quarter leather bindings, without any major imperfections and in good condition. With gold title imprint on the spine. What makes this item special and probably unique are the hammer prices added by hand to each lot and, in almost all cases, the names of the buyers or agents. Alongside Burrus, you can see well-known names such as Griebert, Champion, Lichtenstein, Kosack and many others. The starting price and the hammer price are noted to the left of the description text, and the respective catalogue price at the time is noted to the right. This is truly a unique copy, in which someone (an employee?) has recorded all these entries. Estimate: 2,000 Euro	1000

Annika Baudry. Efter studier i kommunikationsdesign vid Parsons School of Design och sex års anställning som senior grafisk designer i New York flyttade Annika till Frankrike. Som bokentusiast hade hon redan utforskat den bibliofila världen, men här såg hon möjligheten att fördjupa sina tekniska kunskaper om objektet och tog en CAP-examen i bokbindning vid Union Centrale des Arts Décoratif i Paris.

Hennes främsta intressen för typografi, bild, komposition och layout kom alla samman. Hennes huvudsakliga arbete är samtida bokbindning för samlare och bibliofiler och hon finns representerad i den permanenta samlingen hos flera prestigefyllda bibliotek och stiftelser. Annika designar också böcker, kataloger samt visuell identitet och skapar egna konstnärsböcker, ibland i samarbete med andra konstnärer.

Sättet att arbeta med ädelt material och skapa föremål för att skydda böcker upptäckte hon genom Tomas Bjäringer för hans filatelistiska bibliotek. Deras samarbete har varat i över 20 år.

Allgemeine Versteigerungsbedingungen

1. Die Versteigerung erfolgt ausschließlich in fremdem Namen und für fremde Rechnung.
   Der Versteigerer ist berechtigt, die Rechte des Einlieferers aus dessen Auftrag und aus dem Zuschlag im eigenen Namen geltend zu machen.
2. Den Zuschlag erhält der Höchstbietende. Der Versteigerer hat in begründeten Fällen das Recht, den Zuschlag zu verweigern, Lose zurückzuziehen, umzugruppieren oder aufzuteilen. Bei gleichhohen Geboten entscheidet das Los. Ein Bieter bleibt an das abgegebene Gebot gebunden, wenn ein nachfolgendes Übergebot ungültig ist oder vom Versteigerer sofort zurückgewiesen wird. Der Versteigerer kann den Zuschlag zurücknehmen und das Los erneut anbieten, wenn irrtümlich ein rechtzeitig abgegebenes höheres Gebot übersehen worden ist oder wenn sonst Zweifel über den Zuschlag bestehen. Der Versteigerer kann unter dem Vorbehalt der Genehmigung des Einlieferers zuschlagen. Der Bieter bleibt dann an sein Gebot 4 Wochen ab dem Tag des Zuschlags gebunden. Bei einem Zuschlag unter Vorbehalt kann die Position ohne Rückfrage an einen anderen Limitbieter abgegeben werden.
   Mit dem Zuschlag kommt zwischen dem Einlieferer und dem Ersteigerer ein Kaufvertrag zustande.
3. Schriftliche Aufträge werden in jedem Fall gewissenhaft und interessewahrend, jedoch ohne Gewähr, ausgeführt. Die gebotenen Höchstpreise werden nur soweit ausgeschöpft wie es nötig ist, sonstige Gebote zu überbieten. Bei Geboten mit „bestens" kann der Versteigerer bis zum Dreifachen, bei Höchstgebotsaufträgen (z.B. „höchst", „auf alle Fälle", „bis Ultimo", „kaufen") bis zum Zehnfachen des Ausrufpreises bieten. Das Mindestgebot für Auktionslose ohne Schätzpreis bzw. Schätzpreis „Gebot" beträgt EUR 10,-. Online-Direkt-Gebote über das Internet bedürfen der vorherigen Anmeldung beim Versteigerer und dessen Zustimmung. Für die Bearbeitung übernimmt der Versteigerer jedoch keine Gewähr, er haftet inbesondere nicht für das Zustandekommen der technischen Verbindung. Das Widerrufs- und Rückgaberecht bei Fernabsatzverträgen findet auf solche Gebote keine Anwendung (§ 312 d Abs. 4 Nr. 5 BGB).
4. Der Versteigerer erhält vom Käufer eine Provision von 22% des Zuschlagspreises sowie EUR 3,00 je gekauftem Los. Die Kosten für Porto, Verpackung, Versicherung und ggf. Import (Zusammen: „Sonstige Leistungen") werden den Käufern in Rechnung gestellt. Die auf Provision und sämtliche sonstigen Leistungen (=Spesen) anfallende Mehrwertsteuer (derzeit 19%) wird gesondert in Rechnung gestellt. Dies gilt auch für die Mehrwertsteuer auf Lose (derzeit 7%) die mit einem Kreis (°) gekennzeichnet sind. Lieferungen in Drittländer sind gegen Vorlage des Ausfuhrnachweises von der USt. auf die Provision, auf Spesen, Losgebühr und eventuell Lospreis befreit. Lieferungen an Abnehmer aus anderen EU-Ländern mit UID-Nr. erfolgen unter Anwendung des Reverse-Charge-Verfahrens, d.h. die Provision, die Spesen und die Losgebühr unterliegen nicht der deutschen Umsatzsteuer; der Käufer ist in diesen Fällen verpflichtet, die USt. in seiner USt.-Erklärung in seinem Heimatland anzugeben.
5. Der Zuschlag verpflichtet zur Abnahme. Saalbieter haben die Kaufrechnung sofort auszugleichen, bei schriftlichen Bietern wird die Auktionsrechnung mit Zustellung fällig. Während oder unmittelbar nach der Auktion ausgestellte Rechnungen bedürfen einer besonderen Nachprüfung und eventueller Berichtigung; Irrtum vorbehalten. Wer für Dritte bietet, muss seine Vertreterstellung vor Beginn der Versteigerung offenlegen; andernfalls kommt der Kaufvertrag mit dem Bieter zustande. Bis zur vollständigen Zahlung - bei Zahlung durch Scheck oder Wechsel bis zur Einlösung - bleiben die Lose Eigentum des Einlieferers. Ein Anspruch auf Herausgabe der ersteigerten Lose besteht erst nach vollständiger Kaufpreiszahlung. Kosten des Geldverkehrs gehen zu Lasten des Käufers.
6. Ist der Käufer mit seiner Zahlung in Verzug, werden Zinsen in Höhe von 1% pro angefangenem Monat berechnet. Der Zinssatz kann höher oder niedriger angesetzt werden, wenn der Versteigerer eine Belastung mit einem höheren Zinssatz oder der Käufer eine geringere Belastung nachweist; der Zinssatz liegt aber mindestens 5% über dem Basiszinssatz pro Jahr. Kommt der Käufer seiner Zahlungsverpflichtung nicht nach oder nimmt er die ersteigerten Lose nicht ab, so ist der Versteigerer berechtigt, vom Ersteigerer einen pauschalen Schadensersatz von 25% der Zuschlagsumme als Ausgleich für entgangene Einlieferer- und Käuferprovision sowie entstandene Aufwendungen zu verlangen, sofern der Käufer nicht nachweist, dass ein Schaden überhaupt nicht oder nicht in der Höhe der Pauschale entstanden ist. Die Geltendmachung eines nachgewiesenen höheren Schadens durch den Versteigerer bleibt unberührt.
7. Die Versendung ersteigerter Lose erfolgt auf Rechnung des Käufers. Wenn der Käufer ein Unternehmer ist, geht die Gefahr auf den Käufer über, sobald die Ware versandfertig der Post oder einem anderen Versandunternehmen übergeben worden ist. Der Versteigerer bietet für die Versendung eine Transportversicherung an, deren Kosten der Käufer zu tragen hat.
8. Die zur Versteigerung kommenden Sachen können vor der Auktion besichtigt und geprüft werden. Die Katalogbeschreibungen sind keine Garantien für die Beschaffenheit der Sachen. Der Versteigerer übernimmt keine Haftung für Mängel. Er verpflichtet sich jedoch, Mängelrügen, die ihm rechtzeitig angezeigt werden, unverzüglich an den Einlieferer weiterzuleiten. Im Falle einer Rückabwicklung des Kaufvertrages erstattet der Versteigerer dem Erwerber das Aufgeld; ein darüber hinausgehender Anspruch ist ausgeschlossen.
   Reklamationen bezüglich offener Mängel müssen innerhalb von 10 Tagen nach Übergabe oder Zustellung der Lose bei dem Versteigerer eingegangen sein. Der Versteigerer kann zum Nachweis der Mängel vom Käufer auf dessen Kosten die Einholung von Prüfattesten durch zwei voneinander unabhängige Spezialprüfer verlangen.
   Bei Sammlungen, Sammellosen oder sonstigen Großlosen sind Reklamationen jeglicher Art, insbesondere im Hinblick auf Qualität und Quantität ausgeschlossen. Sofern die Beschreibung nichts Anderes ausweist, sind angegebene Katalogwerte unverbindlich.
   Lose, die bereits mit Fehlern beschrieben sind, können wegen weiterer kleiner Mängel nicht reklamiert werden. Fehler, die sich aus den Abbildungen ergeben (Schnitt, Zähnung, Stempel, Zentrierung, usw.) können nicht zum Gegenstand einer Reklamation gemacht werden.
   Jede Reklamation ist ausgeschlossen, wenn Lose oder Marken verändert worden sind. Als Veränderung gelten insbesondere auch Entfernen von Falzen, Falz- oder Papierresten, Wässern, Behandlung mit Chemikalien und Anbringen von Zeichen jeder Art. Erfolgt ein Zuschlag unter Vorbehalt der Prüfung, wird diese vom Versteigerer veranlasst, wenn vom Bieter nicht anders bestimmt; die Kosten trägt der Käufer. Durch die Abgabe eines Gebotes auf bereits geprüfte Marken oder auf Marken mit Attest werden die Prüfzeichen bzw. Atteste, die dem Käufer zur Einsicht bzw. Kenntnisnahme zur Verfügung stehen, von diesem als maßgebend anerkannt, es sei denn, der Bieter hat sein Gebot unter Vorbehalt der Bestätigung durch einen von ihm bestimmten und von dem Versteigerer akzeptierten Sachverständigen abgegeben.
   Marken, die eindeutig als Fälschung ermittelt werden, können von den Prüfern als solche gekennzeichnet werden. Der Auktionator ist berechtigt, den Käufer mit allen Reklamationen an den Einlieferer zu verweisen.
9. Wir behalten uns zudem vor, Daten über schwerwiegende Leistungsstörungen (z.B. versuchte Betrugsfälle, Ausfall anerkannter, trotz zweifacher Mahnung unbestrittener oder rechtskräftig titulierter Forderungen) auch Dritten zugänglich zu machen, wenn dies in unserem berechtigten Interesse an einer Rechtsverfolgung oder dem Schutz des Auktionswesens vor Schäden liegt oder diese hieran ein berechtigtes Interesse nachweisen. Das können beispielsweise Strafverfolgungsbehörden, Wirtschaftsauskunfteien aber auch andere Auktionshäuser sein.
10. Die vorgenannten Versteigerungsbedingungen gelten sinngemäß auch für den freihändigen Verkauf; die Bestimmungen über Fernabsatzverträge finden darauf keine Anwendung.
11. Erfüllungsort und Gerichtsstand für den kaufmännischen Verkehr ist Wiesbaden. Es gilt ausschließlich deutsches Recht.
12. Mündliche Abreden sind nicht getroffen. Änderungen oder Ergänzungen dieses Vertrages bedürfen der Schriftform.
13. Sollte eine der vorstehenden Bestimmungen ganz oder teilweise unwirksam sein, wird die Gültigkeit der übrigen davon nicht berührt.

Stand: August 2025

General Conditions for Auction

1. *The auction is held exclusively on behalf of and for the account of third parties.*
   The auctioneer is authorized to pursue in his own name all rights and claims arising from the vendor's instructions or the knocking down of lots.
2. *Lots are knocked down to the highest bidder. The auctioneer has the right in justified cases to refuse to knock down a lot, and to withdraw, combine and divide lots. Equal bids are determined by drawing lots. A bidder is bound by his bid if it is followed by a higher bid which is invalid or which is immediately refused by the auctioneer. In case that a higher bid, which was placed in time, erroneously was overlooked or in any other cases of doubt, the auctioneer may cancel the knocking down and reoffer the lot. The auctioneer may knock down a lot subject to the seller's subsequent approval. The bidder is then bound by his bid for a period of four weeks from the date of making the bid. In case of a lot being knocked down subject to approval it can, however, be sold to another limit bidder without further inquiry. On the fall of the hammer a contract is established between the seller and the buyer. The auctioneer is legally bound, if so requested, to divulge the seller's name to the buyer and the buyer's name to the seller.*
3. *Written orders to bid will be executed conscientiously and safeguarding the client's interests, but without recourse. The maximum prices as offered will be exhausted only to the extent as necessary to overbid other offers. In case of a bid "at best" the auctioneer may bid up to three times the start price, in case of bids "at any price" or "buy" up to ten times. The minimum bid for lots without estimate or for lots marked with "Gebot" is EUR 10,-. Online bidding via the Internet requires the consent of the auctioneer prior to the auction. For processing of the online bids the auctioneer takes no responsibility, espacially not in regards to the state and/or quality of the internet connection.The distance contracts laws (Fernabsatzverträge) regarding withdrawals and returns do not apply (§ 312 para 4, No. 5 BGB).*
4. *The auctioneer receives a commission from the buyer of 22% of the hammer price plus EUR 3,00 for each purchased lot. The buyer will be charged with the cost of postage, packing, insurance and the cost of import (in total=expenses) if necessary.*
   Value added tax (currently 19%) on the auctioneer's commission and expenses together with value added tax on the hammer price (currently 7%) if applicable will be invoiced separately. Supplies to Non-EU-Member States are exempted from VAT on commission, expenses and hammer price with presentation of relevant export documents. Supplies to EU customers outside Germany holding an EU VAT-ID-Number underly the "Reverse Charge System", i.e. for commissions and expenses the German VAT does not apply; the buyer is obliged to include the respective VAT in his/her VAT declaration in his/her home country.
5. *Bidders are obliged to take over lots knocked down to them. Invoices to room bidders are payable immediately, all other invoices are payable upon receipt. Invoices issued during or immediately after the auction are subject to review and possible amendments; errors reserved.*
   Persons bidding for third parties should make this known to the auctioneer before the auction; otherwise they may be deemed to be the buyer.
   Lots remain the property of the seller until payment has been made in full which includes clearance of any cheques and payment of any bills of exchange.
   The buyer has no right to request delivery of any lots until payment has been made in full.
6. *If payment is delayed interest will be charged at 1% per month or part month. This interest rate may be adjusted if the auctioneer can prove that a higher rate or the buyer can prove that a lower rate is justified; the interest rate is at least 5% higher than the basis interest rate per year.If the buyer fails to pay promptly or does not take up the lots, the auctioneer is entitled to demand flat-rate damages of 25% of the hammer price in compensation for forgone commission and for expenses incurred unless the buyer can prove that there is no damage or that the amount claimed is excessive. The auctioneer reserves the right to claim higher damages subsequently.*
7. *The dispatch of knocked-down lots on buyer's request will be effected at his expense. If the buyer is a company, the risk will be transferred to the buyer as soon as the goods have been handed over for dispatch to the post office or another dispatch service. The auctioneer offers a transport insurance, the costs of which have to be born by the buyer.*
8. *All lots may be viewed and checked before the auction. Descriptions in the catalogue do not mean guarantees for quality and authenticity. The auctioneer is not liable for any defects of the items. He commits himself, however, to transmit without delay complaints about defects to the consignor. In case of reversed transaction the auctioneer will reimburse his commission to the buyer; any further claims to him are excluded.*
   Claims relating to obvious defects must be received by the auctioneer within ten days of handing over or delivery. The auctioneer is entitled to require the buyer to obtain at his expense reports from two independent experts that substantiate the claims. No claims of any sort, in particular relating to quality and quantity may be made in respect of collections, accumulations and other large lots. Unless stated otherwise, quoted catalogue values are not binding.
   Lots already stated to contain faults cannot be returned by reason of further small faults. Defects which can be seen from illustrations (margins, perforations, cancellations, centering etc.) cannot be subject of complaints.
   No complaint will be considered if lots or stamps have been altered. Alterations include removal of hinges, hinge remainders or paper adhesions, immersion in water, treating with chemicals and the addition (or removal) of marks of any sort.
   If a lot is purchased subject to an expert opinion, the cost of which will be borne by the buyer, this expertising will be arranged by the auctioneer unless otherwise determined by the buyer.
   With bidding for stamps which have already been expertised or for stamps with certificates the bidder accepts the expert marks and certificates which are available for his guidance and inspection as decisive unless the bid is made subject to certification by any expert nominated by the bidder and approved by the auctioneer before the auction.
   Stamps which are clearly established as forgeries may be marked as such by experts.
   The auctioneer is entitled to request the buyer to refer all complaints directly to the seller.
9. *In addition, we reserve the right to make data on serious service disruptions (e.g. attempted fraud, failure of recognised claims despite two reminders of undisputed or legally enforceable claims) also accessible to third parties if this is in our legitimate interest to prosecute or protect the auction system from damage or if they prove a legitimate interest in this. These may be, for example, criminal prosecution authorities, credit agencies or other auction houses.*
10. *These auction terms also apply to subsequent sales after auction; the special provisions for distance sales do not apply.*
11. *Place of fulfillment for either party shall be Wiesbaden; any disputes arising shall be referred to the court having jurisdiction in Wiesbaden under German law.*
12. *No oral variations to these conditions are valid; all alterations or additions must be in writing.*
13. *Should one of the above conditions be unworkable in whole or in part, the validity of the other conditions will remain unaffected.*

Current as of August 2025

Informationen zur Umsatzsteuer · *Tax (VAT) Information*

Umsatzsteuer in Höhe von 19 % auf unsere Provision und Nebenkosten (nicht auf den Zuschlagspreis) werden allen inländischen und EU-Käufern ohne UID-Nr. in Rechnung gestellt.

Lieferungen in Drittländer sind gegen Vorlage des Ausfuhrnachweises mit Angabe des Rechnungsbetrages von der USt. auf die Provision, auf Spesen und Losgebühr befreit.

Lieferungen an Abnehmer aus anderen EU-Ländern mit UID-Nr. erfolgen unter Anwendung des Reverse Charge-Verfahrens, d.h. die Provision, die Spesen und die Losgebühr unterliegen nicht der deutschen USt.; der Käufer ist in diesen Fällen verpflichtet, die USt. in seiner USt.-Erklärung in seinem Heimatland anzugeben.

Bedeutung von Kreis (○) und Punkt (•)

Bei mit einem Kreis (○) an der Losnummer gekennzeichneten Losen fallen zusätzlich zu der oben erwähnten Umsatzsteuer (19%) auf die Provision 7 % Umsatzsteuer auf den Zuschlagspreis an. Diese 7 % USt. werden Händlern in der EU außerhalb Deutschlands mit einer UID-Nr. nicht berechnet.

Auch bei Käufern außerhalb der Europäischen Union entfällt die Berechnung dieser USt., sofern der Export der Ware mit Angabe des Rechnungsbetrages nachgewiesen wird. Im Inland ansässigen Händlern mit UID-Nr. wird diese USt. zwar berechnet, diese kann jedoch im Rahmen der Umsatzsteuererklärung als Vorsteuer geltend gemacht werden.

Bei mit einem Punkt (•) an der Losnummer versehenen Losen fallen 7 % Importspesen (nicht abzugsfähig) auf den Zuschlagspreis an. Dies gilt für ALLE Käufer (ob in Deutschland, der EU oder außerhalb der EU ansässig).

19 % Value Added Tax (VAT) on commission and expenses (not on the hammer price) will be invoiced to all domestic buyers and all buyers from EU countries without EU VAT-ID number.

Supplies to non-EU-Member States are exempted from VAT on commission and expenses upon presentation of proof of export including the total invoice amount.

Supplies to EU customers outside Germany holding an EU VAT-ID underly the "Reverse Charge System", i.e. for commissions and expenses the German VAT does not apply; the buyer is obliged to report the respective VAT in his/her VAT declaration in his/her home country.

Meaning of circle (○) and dot (•)

For lots marked with a circle (○) next to the lot number an additional 7 % VAT on the hammer price will be charged. This charge does not apply to dealers outside Germany and within the European Union with a turnover tax identification number.

Nor does this tax apply to buyers outside the European Union. In these cases we must prove the export of the material reporting the total invoice amount.

For lots marked with a dot (•) next to the lot number 7 % import charges (not tax, non deductible) on the hammer price will be charged to ALL buyers (from Germany and within and outside the European Union).

WICHTIGE INFORMATION:

Lose ohne Kreis (○) können normalerweise in die Differenzbesteuerung eingebracht und weiter- verkauft werden. Dies gilt auch für die Lose mit einem Punkt (•).

Die MwSt auf die Provision darf für Händler mit Vorsteuerabzug in der Regel als Vorsteuer geltend gemacht werden. Für weitere Informationen konsultieren Sie Ihren Steuerberater.

IMPORTANT INFORMATION:

All lots without a circle (○) can be sold in the margin scheme. This also relates normally to the lots with a dot (•).

The VAT on the commission and expenses can possibly be subject to refund by the German tax authorities. For further information please consult your tax advisor.
